

MAN'S NATURAL ENVIRONMENT

Let's now look at what is man's natural environment -

It is an environment that allows him full usage of his inborn instincts - namely

To move up the ladder of life through exploiting or profiting..... Which is aided and abetted by his distinct 'fear' of falling down the ladder of life to where danger lurks!

Surely the healthiest environment to live in is one that is 'in tune' with our past - i.e. an environment that allows full utilisation of our physical, mental and instinctive abilities.

That means, we need an environment which allows us to work, sleep and play; allows us the hopes and possibilities of self improvement AND allows us the 'fear' of falling.

We would not be 'bottled up' or frustrated.

In a 'mobile' environment, not only does the individual have a healthier and more exciting environment to live in, but the combined effect of each individual trying to motivate himself upwards is that the whole society moves up as upward forces outweigh the downward forces.

A MOBILE ENVIRONMENT

GREED

THE 'GUIDELINES' TO LIFE ARE VERY CLEAR ... WE WILL ALWAYS STRIVE FOR THE CASTLE, AND DO OUR BEST TO STAY AWAY FROM THE CROCODILE!

OUR NATURAL ENVIRONMENT -OR ONE 'IN TUNE' WITH OUR MAKE-UP IS A MOBILE ENVIRONMENT, WHICH ALLOWS US THE HOPES AND DREAMS OF BETTER THINGS, AS WELL AS ADDING THE SPICE OF LIFE- A LITTLE BIT OF FEAR !!!

DANGER

Look at the simple scale which relates to the TRUE VALUE of life as opposed to material values.

Life's 'material' value is read off the scale horizontally, i.e. if you are in Box 1, your material value is fairly good.

Life's 'true' value is read off the scale vertically and relates to MOBILITY, i.e. if you are in Box 8 and have a hope of getting to Box 1 then you are in for an exciting life and you score 8 out of 10 on the scale of life's 'true value'.

The more you are exposed to mobility up and down life's predicaments, the more points you score on the scale of life's true values.

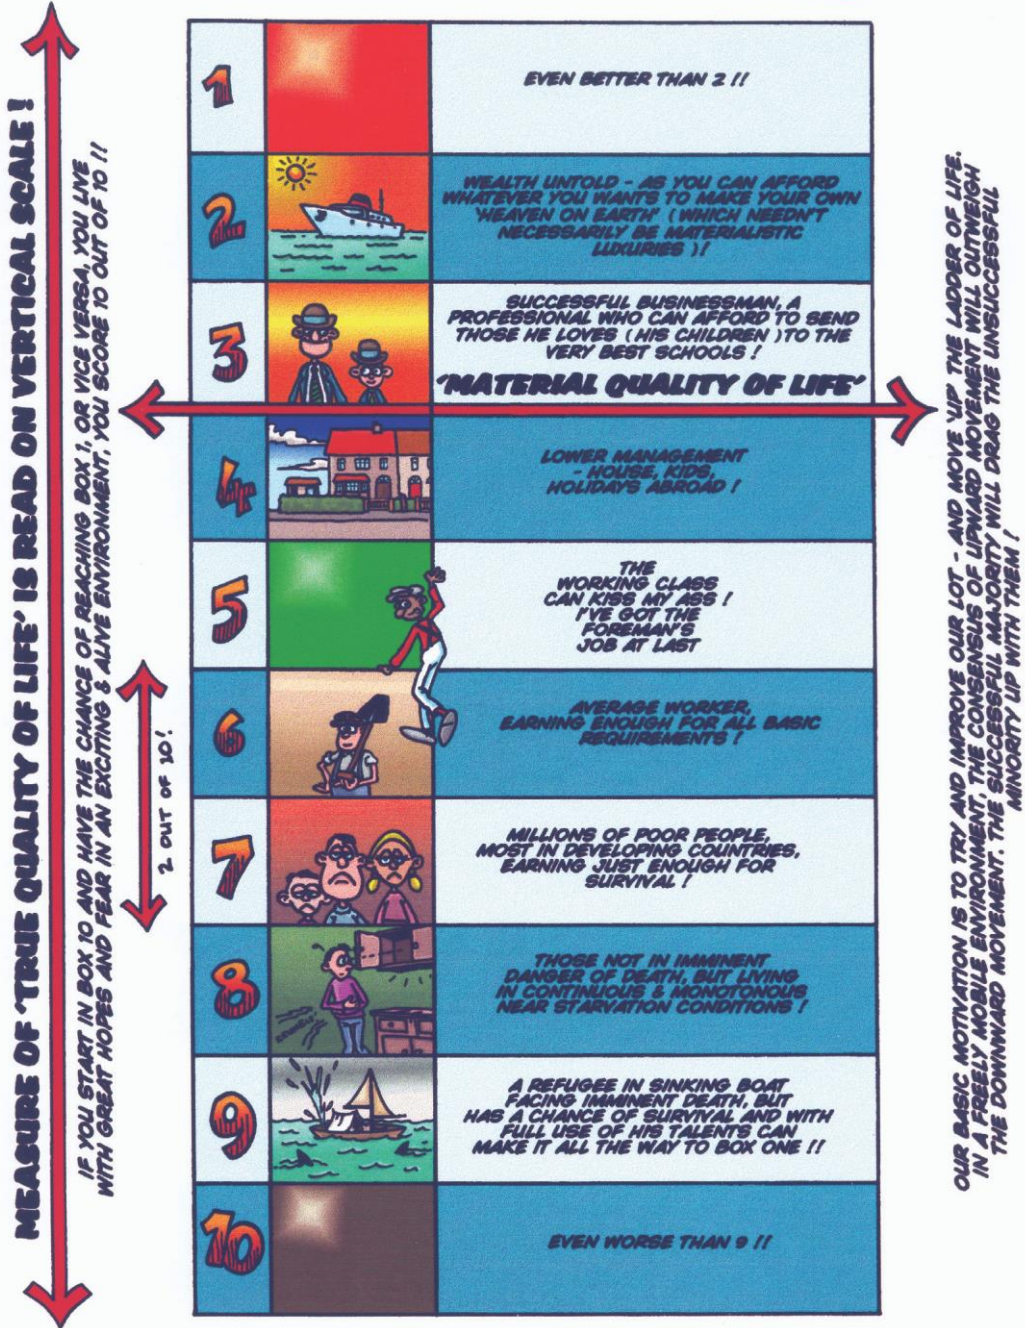

True value is more important than material value because it is intrinsic, invisible and adds to the spiritual depth of a person.

It is a measure of how much you are in tune with your make up.

Mobility allows you to live with hope in your heart!

THE SCALE OF LIFE'S TRUE VALUE !

The opposite and less healthy situation is an immobile society.

Here, if you start life in Box 5 and are told at the outset that no matter how talented you are, you will not be given an opportunity to move up the ladder of life, and are also prevented from falling down this same ladder, you score only 1 out of 10 in life's 'true' or spiritual value.

Wherever we start on the scale, the fact that we are not allowed to rise or fall is a total negation of what we are and what makes us tick. Without the incentive to improve himself man could be just a lifeless vegetable since nothing he does has any real material effect on him.

Such an environment is unhealthy to the individual and collectively the society which does not allow mobility also suffers as a whole.

IMMOBILE ENVIRONMENTS ARE UNNATURAL

A
SITUATION WHERE
YOU CANNOT MOVE
UP OR DOWN IS
UNNATURAL TO
HUMANS!

HOW WOULD YOU LIKE TO BE BOTTLED UP ?
NOBODY LIKES LOSING, BUT THE RISK DOES ADD
SPICE TO LIFE - AND WE CAN ALL DREAM DREAMS
AND WANT OUR CASTLE.
